

Catch::IContext

Catch::IContext

Catch::IMutableContext

```
graph BT; A[Catch::IMutableContext] --> B[Catch::IContext]; A --> C[Catch::IContext];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'Catch::IMutableContext'. Two arrows originate from the top of this box and point upwards to two separate boxes at the top, both labeled 'Catch::IContext'. This indicates that 'Catch::IMutableContext' inherits from or is a specialization of 'Catch::IContext'.
